### DETAILED ACTION

1. The terminal disclaimer filed on 8-30-02 disclaiming the terminal portion of any patent granted on this application that would extend beyond the expiration date of 5,849,902 has been reviewed and is NOT accepted.
2. The assignee has not established its ownership interest in the application, in order to support the terminal disclaimer. There is no submission in the record establishing the ownership interest by either (a) providing documentary evidence of a chain of title from the original inventor(s) to the assignee, or (b) specifying (by reel and frame number) where such documentary evidence is recorded in the Office (37 CFR 3.73(b)).
3. The Obvious-type Double Patenting rejection of claims 1-19, was inappropriately withdrawn in the Official Action mailed 11-19-02 since the terminal disclaimer filed on 8-30-02, in response to the rejection was not accepted.

#### ***Double Patenting***

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 1-19 remain rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-23 of U.S. Patent No. 5,849,902. Although the conflicting claims are not identical, they are not patentably distinct from each other, for the reasons of record set forth in the Official Action mailed 1-02-01, as set forth below for Applicant's convenience.

6. The instant claims differ from the claims of '902 since the instant claims specify the 11-59 bases are divided by an RNase-H activating region and the claims of '902 specify the 5' terminal or 3' terminal of the oligonucleotide is attached to the an RNase-H activating region. Absent evidence to the contrary, it would have been obvious to one of ordinary skill in the art that RNase H functions by recognizing and cleaving RNA/DNA duplexes and said activation region of '902 would render obvious its application anywhere in an oligonucleotide.

#### ***Conclusion***

7. Since the above rejection could have been maintained for the reasons of record in the Official Action mailed 11-19-02, **THIS ACTION IS MADE FINAL**. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
